Make a Personal Event

Let us notify you when your preferred weather conditions are forecast. We'll watch for your preferred weather conditions using the forecast for your specific locations. Your personal weather web page will tell you at a glance if good weather is expected. Just follow the steps below.

1 Choose your activity

Select an activity from our list **or** Describe your activity below

51 → ▼

57

2 Briefly describe your event. (for example: Golf at Odana)

52

3 Provide the location of your event.

[Click here to get help finding locations](#) or provide values below.

ZIP Code

Latitude Longitude

53 →

or

(example: 41.883) (example: 87.622)

4 Provide the date and time of your event

54 → Date ▼ ▼

Time from ▼ to ▼

5 Select the weather conditions that you feel are important for this activity. (hint: Click on the boxes next to the weather conditions you care about)

FIG. 4a

5/12

6 Choose your ideal range for the weather conditions you have selected.
(The conditions are considered "good" **only** if all of them are in the range you have selected for the entire time period of your event. If you make the range(s) too narrow, the chances of "good" conditions will be small)

Hi Matt! Happy Thursday,
March 30, 2000

The forecast today is for cloudy
skies, with a high of 66° at 3:00 P.M..

Rain will begin at about 4:17
P.M., and will end at 10:18 P.M., you'll
receive .16 inches.

- All the best for a great day!

Bob Lindmeier

P.S. Tonight I have a "special"
on how to golf in high winds.

Personal Event Schedule for Peter Manghera

golf

New Event - Golf at University Ridge between 8AM and 6 PM on 10/4/00

Make a new personal event

99

This forecast is for your home at 2909 Oakridge Ave in Madison, Peter. Temperatures will begin to get cooler and clouds will thicken and lower throughout the day and bring a few scattered showers this afternoon from a disturbance in the upper levels of the atmosphere. Our MicroCast model below is forecasting temps in the 50s, but some locations will see temps move into the 60s.

27 Weather Central Meteorologist Kevin Craig

Tuesday, October 3

Afternoon (12:30pm-6pm)

51-53

NW-NE 5-10 mph

Evening (6:30pm-Midnight)

50-52

NE 5-10 mph

7/12

84

There is a slight chance for showers with an increased chance north of here. Winds will be 5 to 10 MPH from the northwest turning from the north as the afternoon progresses. Temperatures will remain around 52 with today's high of 53 occurring around 4:30pm.

Moderate rain showers are expected. Rainfall should begin around 8:30pm and continue into overnight. Heavier rain west of here will drop up to 0.21 inches of rain. Winds will be 5 to 10 MPH from the north. Temperatures will stay near 51.

FIG. 6a

APPROVED	O.G. FIG.	CLASS SUBJECT
BY		
CRAFTSMAN		

Light rain showers are expected. Rainfall should occur between 12:30am and 3:00am with accumulations near 0.13 inches. Heavier rain west of here will drop up to 0.44 inches of rain. Winds will be 5 to 10 MPH from the north. Temperatures will hold steady around 48 with today's low of 46 occurring around 6:00am.
